To Whom It May Concern;

Re: Roof Management Inspection Services (RMIS) Letter of Reference

On behalf of the South East Cornerstone Schools Division's Facilities Department, I would like to provide RMIS with this letter of reference.

Our department has been working closely with RMIS over the past 2 years on inspecting, evaluating and helping to replace our aging roof infrastructure. Without their knowledge, expertise and assistance on this ever growing problem we would be in a much worse situation with our facilities.

Over the past couple of years we have got to know all of the staff very well and not only are they a very professional company but have become very close business associates who we trust and rely on to help us deal with our never ending roof issues.

RMIS has provided us with great insight and direction in regards to our roof life cycles, project management for roof repair / replacement projects, dealing with the Ministry of Education, roof repair training seminar, developing a fall protection compliance program and general inquiries to assist staff in completing minor repairs.

I strongly recommend RMIS as a reliable and professional company that would greatly assist an organization, sector or municipality in dealing with their roof management issues.

If anyone would like to speak to me personally as a reference for RMIS I may be contacted at any time.

Respectfully,

Jim Swryda
Facilities Operations Supervisor
